Subject: Recovery of Stolen Race Car, Trailer and Truck
– SPRD Cases 15-2624, 2625 & 2626

On Tuesday, September 8th, a Ford F150 and an attached trailer were stolen from the driveway of a home on Toltec Circle in San Ramon. Inside the stolen trailer was a custom 1967 Mustang Fastback race car.

Earlier today, the stolen Ford F150 truck was recovered in the City of Oakland. San Ramon Police Detectives responded and processed the truck for evidence. During their investigation, Detectives requested assistance from a CHP Helicopter for an aerial search of the surrounding area. Inside a storage yard at the intersection of Railroad Avenue and Clara Street in Oakland, the CHP Helicopter Unit spotted a trailer matching the description of the trailer stolen from San Ramon.

San Ramon Police Detectives authored a search warrant, which was served at the storage yard at 7:15pm, with assistance from CHP, Alameda County Sheriff's Department, and Oakland Police. The trailer was found in the storage yard where it had been previously spotted by the CHP Helicopter Unit. All identifying decals had been removed from the trailer. Using specific markings on the trailer, CHP personnel verified this was the trailer stolen from San Ramon. The trailer was opened and the stolen Mustang Fastback race car was found inside, undamaged.

No one was located inside the storage yard and no one was taken into police custody. The investigation to determine those responsible for this theft is continuing.
